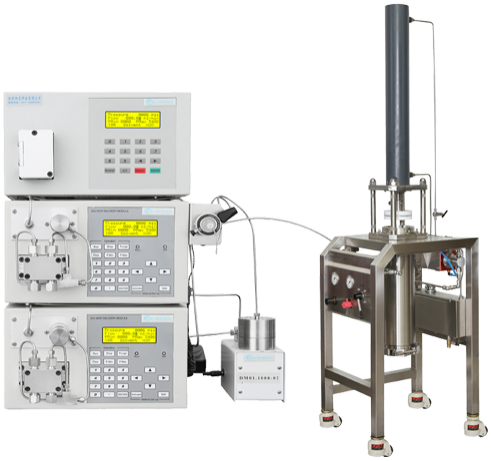
Tianzhao Instruments

LC500P Dynamic Axial Preparative Chromatography System

LC500P | Preparative Columns Systems

Preparative LC system for purification tasks requiring DAC column compatibility and flexible module selection.



Key Features

- Preparative LC configuration with dynamic axial column support
- Designed for purification, collection, and scale-up studies
- Modular instrument selection for pump, detector, column, and collection needs
- English PDF brochure available for RFQ preparation

Typical Applications

- Preparative HPLC purification
- Compound isolation
- Method scale-up
- University and institute purification labs

Selection Reference

System Type	Preparative liquid chromatography
Column Format	Dynamic axial compression column compatible
Use Mode	Laboratory preparation and process development
Documentation	English PDF brochure available
Voltage	Confirm voltage and plug standard before quotation
Document Status	English PDF version for international product selection

Final configuration, accessories, voltage, plug standard, documentation scope, and delivery details should be confirmed before quotation.
