

DAC Dynamic Axial Compression Column

DAC Series | Preparative Columns Systems

Dynamic axial compression chromatography columns for preparative purification and process development.

Key Features

- DAC column series for preparative chromatography
- Multiple column sizes are visible in product images
- Suitable for purification and packing-pressure controlled workflows
- English PDF brochure available for column selection

Typical Applications

- Preparative chromatography columns
- Purification scale-up
- Natural product isolation
- Pharmaceutical process development

Selection Reference

Product Type	Dynamic axial compression chromatography column
Series	DAC50, DAC100, DAC200, DAC300 and related sizes by source assets
Use Mode	Preparative LC purification
Documentation	English PDF brochure available
Voltage	Confirm voltage and plug standard before quotation
Document Status	English PDF version for international product selection

Final configuration, accessories, voltage, plug standard, documentation scope, and delivery details should be confirmed before quotation.
