

# GC-8500 Gas Chromatograph

## GC-8500 | Chromatography Systems

Gas chromatography system for routine volatile and semi-volatile compound analysis in quality control and testing labs.

### Key Features

- Gas chromatograph for routine analytical testing
- Suitable for environmental, food, chemical, and teaching laboratories
- Product assets include multiple product views and English PDF documentation
- Detector and inlet configuration can be selected by method requirements

### Typical Applications

- Environmental VOC analysis
- Food and flavor analysis
- Chemical QC
- University teaching laboratories

### Selection Reference

<b>Instrument Type</b>	Gas chromatograph
<b>Analysis Type</b>	Volatile and semi-volatile compound analysis
<b>Configuration</b>	Inlet, column oven, detector, and workstation by method
<b>Documentation</b>	English PDF brochure available
<b>Voltage</b>	Confirm voltage and plug standard before quotation
<b>Document Status</b>	English PDF version for international product selection

Final configuration, accessories, voltage, plug standard, documentation scope, and delivery details should be confirmed before quotation.

# Product Views

**GC-8500 GAS CHROMATOGRAPH**  
Reliable performance, flexible configuration, easy operation.

**KEY FEATURES**

- Basic Performance**  
Proven column oven system, flexible configuration, easy operation.
- Flexible Configuration**  
Compatible with various detectors and accessories.
- Easy Operation**  
User-friendly interface for efficient operation and data management.
- Reliable Design**  
High-quality components and rigorous testing for long-term stability.

**TYPICAL APPLICATIONS**

- Environmental Monitoring
- Food Safety
- Pharmaceuticals
- Chemicals

**COMPONENTS AVAILABLE AS OPTIONAL**

- Detector
- Column Oven
- Software
- Accessories

**NEW CONFIGURABLE OPTIONS AVAILABLE**

- Advanced Control System
- Enhanced Security
- Specialty Gas Inlet
- Backup Power
- High-Resolution Data
