

# High-Throughput Microwave Digestion System

## Product Series | Sample Preparation

Microwave digestion system for efficient sample preparation before elemental or chemical analysis.

### Key Features

- Microwave digestion workflow for laboratory sample preparation
- High-throughput configuration for efficient sample preparation
- Suitable before AAS, ICP, and related elemental analysis
- English PDF brochure available for RFQ preparation

### Typical Applications

- Environmental sample digestion
- Food and agricultural testing
- Metal and material analysis
- Elemental analysis preparation

### Selection Reference

<b>Instrument Type</b>	Microwave digestion system
<b>Function</b>	Sample digestion and preparation
<b>Throughput</b>	High-throughput configuration confirmed by model
<b>Application Fit</b>	Elemental analysis sample preparation
<b>Voltage</b>	Confirm voltage and plug standard before quotation
<b>Document Status</b>	English PDF version for international product selection

Final configuration, accessories, voltage, plug standard, documentation scope, and delivery details should be confirmed before quotation.
